

Spice Catalogue 2026

Authentic Indian spices, export-ready — and any spice on request

A Gujarat spice merchant with a worldwide table.

Harmon Earth Exports connects buyers around the world with authentic Indian spices — sourced from the regions that grow them best, checked batch by batch and shipped with every document in order.

Trusted sourcing

A carefully selected network of suppliers across India's spice belts, held to strict quality standards.

Certified quality

Certificate of analysis with every batch. FSSAI licensed · Spices Board of India registered. Pre-shipment inspection on request.

Flexible packaging

From 400 g retail packs to bulk 25–50 kg PP bags, vacuum-sealed or standard. Private label on request.

Export ready

Phytosanitary certificate, certificate of origin, fumigation report and customs clearance handled. FOB, CIF or as required.

Spices not listed here, sourced to your specification

p.10

Haldi

Turmeric Powder

Golden, earthy and unmistakably Indian. Our turmeric powder is milled from cured fingers grown in India's traditional turmeric belts and graded for colour and curcumin, so every lot behaves the same in your blend line. It goes into food, seasoning and nutraceutical ingredient programmes worldwide.

Curcumin	2-5%
Colour value	ASTA 20+
Shade	Vibrant golden yellow

Specification

Botanical name	Curcuma longa L.
Origin	India – Tamil Nadu, Telangana and Maharashtra growing belts
Forms	Powder; whole fingers on request
Curcumin	2-5% (by grade)
Colour value	ASTA 20+
Moisture, mesh & microbiology	To buyer specification, confirmed on the COA for each lot
HS heading	0910 30

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference – confirm the full tariff line with your customs broker.

Where it's used

Seasoning & spice blends

Food manufacturing

Nutraceutical ingredients

Natural colour

Retail & private label

Packing

Retail packs from 400 g · 25-50 kg PP bags · vacuum-sealed · private label on request.

Lal Mirch

Red Chilli Powder

From deep-red, mild-warm varieties prized for colour to fiery blends for heat seekers, we match colour value and pungency to your recipe. Chillies are sourced from India's best-known chilli belts, cleaned, ground and lab-checked before packing.

Colour value	ASTA 80–160+
Pungency	5,000–80,000 SHU
Shade	Deep vibrant red

Specification

Botanical name	Capsicum annum L.
Origin	India – Andhra Pradesh, Karnataka and Telangana chilli belts
Forms	Powder; whole and crushed on request
Colour value	ASTA 80–160+
Pungency	5,000–80,000 SHU – multiple heat profiles
Moisture, mesh & microbiology	To buyer specification, confirmed on the COA for each lot
HS heading	0904 22

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference – confirm the full tariff line with your customs broker.

Masala blend

Garam Masala

India's signature finishing blend, built from roasted whole spices and ground to a consistent profile. Use our house ratio or send us yours — we can match an existing recipe or develop one for your market, then hold it steady from batch to batch.

Blend	Custom ratios
Profile	Consistent batch to batch
Base	7 whole spices

Specification

Composition	Coriander, cumin, cardamom, cloves, cinnamon, black pepper and bay leaf
Blend ratio	House standard or your formulation
Forms	Powder
Consistency	Profile held batch to batch
Moisture, mesh & microbiology	To buyer specification, confirmed on the COA for each lot
HS heading	0910 91

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference — confirm the full tariff line with your customs broker.

Where it's used

Dhaniya

Coriander Powder

Made from double-polished coriander seed and ground for a fresh, citrus-earthly aroma. Coriander is one of Gujarat and Rajasthan's great crops, which keeps supply steady and quality easy to verify.

Volatile oil	0.5–1.5 ml / 100 g
Seed	Double polished
Aroma	Citrus-earthly

Specification

Botanical name	Coriandrum sativum L.
Origin	India – Rajasthan, Gujarat and Madhya Pradesh
Forms	Powder; whole and split seed on request
Volatile oil	0.5–1.5 ml per 100 g
Seed preparation	Double polished
Moisture, mesh & microbiology	To buyer specification, confirmed on the COA for each lot
HS heading	0909 22

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference – confirm the full tariff line with your customs broker.

Dhana Jeera

Coriander Cumin Powder

Dhana jeera is the everyday backbone of Gujarati cooking. We blend coriander and cumin at a 60:40 standard ratio, or to your own, and grind them together so the aroma stays balanced in every pack.

Standard blend	60 : 40
----------------	---------

Ratios	Custom available
--------	------------------

Aroma	Warm, earthy
-------	--------------

Specification

Composition	Coriander and cumin
Blend ratio	60:40 standard; custom ratios available
Origin	India – Gujarat and Rajasthan
Forms	Powder
Moisture, mesh & microbiology	To buyer specification, confirmed on the COA for each lot
HS heading	0910 91

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference – confirm the full tariff line with your customs broker.

Kali Mirch

Black Pepper

Grown on the Malabar coast where pepper has been traded for centuries. Choose bold Tellicherry or classic Malabar grades, whole or freshly ground, with piperine checked on every lot.

Piperine	3-6%
Grades	Tellicherry & Malabar
Forms	Whole or ground

Specification

Botanical name	<i>Piper nigrum</i> L.
Origin	India – Kerala and Karnataka (Malabar coast)
Grades	Tellicherry and Malabar
Forms	Whole or ground
Piperine	3-6%
Moisture, bulk density & microbiology	To buyer specification, confirmed on the COA for each lot
HS heading	0904 11 / 0904 12

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference – confirm the full tariff line with your customs broker.

Elaichi

Green Cardamom

Hand-picked in the cardamom hills of Kerala, dried to keep their natural green colour and size-graded for markets that judge cardamom by the eye as much as the nose.

Pod size	6–8 mm bold
Volatile oil	≥ 6%
Colour	Natural green

Specification

Botanical name	<i>Elettaria cardamomum</i> (L.) Maton
Origin	India – Idukki, Kerala
Pod size	6–8 mm bold, size graded
Volatile oil	6% or more
Colour	Natural green
Moisture & admixture	To buyer specification, confirmed on the COA for each lot
HS heading	0908 31

Typical values. Final specifications are agreed per contract and confirmed on the COA for each lot. HS headings for reference – confirm the full tariff line with your customs broker.
